

MADAGASCAR

COMBO EAST-WEST TOUR
10 days/9 nights Sept 22 - Oct 1, 2025

An otherworldly land of undiscovered species and biological riches, the rugged, remote Indian Ocean island of Madagascar, is home to world's most unique flora & fauna such as Lemurs, a group of primates native to Madagascar & the world's oldest living primates. Wonder at the towering & majestic Baobab trees. This Combo East-West tour is a contrast of natural habitats, dry & rainforest and the wildlife.
